BANNAN WINS AGAINST TOWN OF BLAIRMORE

In Supreme Court at Lethbridge on Tuesday, Mr. Justice Simmons awarded S. G. Bannan, Blairmore lawyer, \$100 and costs in his suit against the Town of Blairmore. Bannan had sued for \$7,000 as a result of Mayor Knight ordering electric light current turned off when the municipality lost an appeal against acquittal of Bannan on a charge of theft of current.

SAFeway STORES

FORGE AHEAD

Large and attractive newspaper advertising has been instrumental in developing considerable additional volume of business for Safeway Stores throughout western Canada. The advertising of this firm has been outstandingly conspicuous in the Vancouver press and has undoubtedly contributed materially to the business development reported by the manager of the organization. Typical of such advertising was a recent full-page advertisement taken in the Vancouver newspapers to draw attention to a four-day holiday week-end sale.

The Safeway organization has a total of 184 stores throughout western Canada, this being made up of 57 stores in British Columbia, 35 stores in Alberta, 37 in Saskatchewan, 50 in Manitoba, and 5 in Ontario, west of the Great Lakes. The firm has experienced outstanding success during the past year, and in the last eighteen months twelve new stores having been opened up, while one store at Macleod was closed down. In Vancouver, as a result of its aggressive advertising policy, the firm's volume has increased 20% during the past few months. In Manitoba, the volume of business held its own during more recent months. This again is directly attributable to advertising which was increased in the Manitoba press about the time the gain in business was recorded. — The Canadian Printer and Publisher.

TO CLEAN UP PROTESTANT CEMETERY

At a meeting of representatives of eleven different lodges, held at the home of Mrs. Archer on Tuesday evening, these local organizations decided to sponsor a move to have the local protestant cemetery cleaned up and put in a more respectable condition.

It is planned to start the work on Saturday or the first day thereafter the mines are idle, and all interested in this necessary and much needed work, which should be done before the winter sets in, are asked to be at the Cosmopolitan hotel corner around 8 o'clock Saturday morning with shovels, rakes, grub hoes, etc., and proceed to the cemetery. Bert Sennier has consented to act as leader of this drive and would like to have as large a crew as possible for the start.

Among the organizations represented were the I.O.D.E., B.E.S.L., Masons and Eastern Star, Oddfellows and Rebekahs, Pythians and Pythian Sisters, Moose and Women of the Moose and the Elks.

Mrs. Archer proved an ideal hostess, serving a luncheon at the close of the discussion.

THE CANADIAN NATIONAL INSTITUTE FOR THE BLIND

At the national general meeting of the Canadian National Institute for the blind held at the national headquarters this month the sixteenth annual report, covering Canada and Newfoundland, was presented. Reviewing the report for Alberta and British Columbia particularly, which comprises the western division, we find that 805 blind persons reside in these provinces out of a total registration of 7,119 for Canada. This includes all ages from infancy to old age. Analysing the registration figures, it is noted that 25% are 70 years of age and over, 50% are between 21 and 70 years, with the remainder of school age and under. Since the education of blind juveniles, like the sighted, is the responsibility of the provincial government, the Canadian National Institute for the Blind is concerned chiefly with the adult blind.

The Prevention of Blindness Department of the western division enabled 193 persons with serious eye defects, who were unable themselves to afford the necessary care, to receive the operation, treatment of glasses required, with the result that the majority of cases their vision was saved.

Blinded soldiers in Alberta and British Columbia, numbering 24, were given after-care and other services by the Institute, under arrangement with the Department of Pensions and National Health.

Since 1923 the Institute has advocated government allowances or pensions for the unemployed blind, particularly those past middle life. During this past year a united request on behalf of the blind has been accomplished and sympathetic consideration has been given by both Dominion and provincial government representatives. It is hoped legislative enactment will soon be effected.

The Canadian National Institute for the Blind is a philanthropic organization, dependent on voluntary contributions from the general public for the greater measure of its support.

A lecturer at Edmonton a few days ago made the claim that we should encourage industry. He said: "The reason some people are continually chewing at gum is because they have nothing else to occupy their minds. Then, he claimed, if you try to stop that gumchewing, you would be looked upon as sponsoring a boycott against chewing gum. Then, in the interest of the factories, let us encourage the chin-wagging."

MUSICAL FESTIVAL OPENS

The 1934 Crows' Nest Pass Musical Festival is away to a big swing, opening this morning at the Coliseum hall, with H. T. Halliwell, of Colemain, president, presiding.

Forty-two young people took part in the piano, violin and vocal competitions during the forenoon, and upwards of 100 in the afternoon events.

We learn that for the three-day programme, fully 600 persons will perform.

Mr. Ronald W. Gibson, of Winnipeg, is adjudicator.

BLAIRMORE MAYOR PROUD OF HIS TOWN

William Knight, mayor of Blairmore, was a business visitor in the city on Monday in connection with a court case here. Mr. Knight was accompanied by Chief of Police J. Fitzpatrick and Town Clerk C. M. Larchester.

His worship pointed out to the Herald the splendid financial position of the town of Blairmore. The town is practically clear of debt and all debts have been paid. Blairmore is almost a model town, he declared. Ninety per cent of the citizens are golly behind the civic government, he said.

Mayor Knight pointed out that his plan is to assess the taxpayers only enough to carry the town over a year. Should unforeseen contingencies arise, the assessment thus has to be raised. There is no surplus at the end of a year. — Lethbridge Herald.

NEW DEPARTMENT OF TRADE AND INDUSTRY

Creation of the new department of trade and industry of the provincial government, proclamation of the act passed at last session, and the naming of Hon. Geo. Headley as minister in charge, with William Anderson, of Edmonton, as deputy, was announced by Premier Reid on Saturday last. To relieve Mr. Headley of some of his other duties, the irrigation branch will be transferred to the department of agriculture.

The government does not propose to initiate any "codes" for industry under the new act, until a thorough survey of the industrial situation of the province has been made by the new deputy. No policies will be announced respecting the enforcement of the provisions of the act in this respect until such survey is made.

One of the important phases of the work of the new department will be the survey and development of the natural resources of the province, and considerable attention will be paid to the expansion of the work already done along these lines.

William Anderson, the new deputy, has been manager of the Hayward Lumber Co., Edmonton, for a number of years, and for over a quarter of a century has been in business in Alberta, having come here as a youth in 1906. He was engaged in the coal business and in the lumber business in southern Alberta, and during the war was overseas as an officer of the C.M.R.s.

TO DISTRIBUTE TREES AGAIN

More than 100,000 white spruce trees, and some \$4,000 green ash will be available for distribution next spring from the provincial nurseries at Oliver. It is announced from the forestry branch of the Department of Lands and Mines. These trees will be distributed on the usual plan adopted two years ago, to farmers who have wood lots, or to schools, community centres, etc. Last year some 34,000 trees of various kinds were distributed from the nurseries to 223 different sources, which included 183 farmers, 18 schools, 13 institutions, and 14 municipalities for community purposes.

UNITED CHURCH ANNIVERSARY

The United church was crowded to overflowing for the anniversary service on Sunday night last, which had as guest preacher the Rev. A. K. McMinn, of Wesley United, Lethbridge, whose discourse was much appreciated and enjoyed. This was the tenth anniversary of the church since the amalgamation of forces of the Methodist, Presbyterian and Congregational bodies. Blairmore's anniversary, however, was singular and far more important than the average, in that it constitutes the first church in the Dominion of Canada to attempt a union of the above trio, plus the Baptists, which union was formed years before the great world-wide pact of the United Church as it is known today. It was noted at the service on Sunday night that the building in which the service was being held was built by the Baptists on or about the year 1908, and that since that time, as far as records show, Mr. McMinn is the first of the former Congregationalists to enter its doors, it being his good fortune on such occasion to conduct this service. Moser's quartette, comprising W. H. Moser and Misses Jean Cruickshank, Helen and Catherine Rose; violin solos by Mr. Roy Upson; and vocal solos by Miss Lena Frater, were pleasingly rendered.

EXCURSION FARES FOR REMEMBRANCE DAY

Winnipeg, Manitoba.—Remembrance Day falls this year on Sunday, November 11th, and, in order to assist those who wish to spend the weekend with friends or relatives, the Canadian National and Canadian Pacific railways have offered special weekend fares of single fare and one-quarter for the round trip, according to an announcement made J. B. Parker, secretary, Canadian Passenger Association, western lines. Tickets will go on sale Friday, November 9th, until noon Monday, November 12th. The return limit will be extended to any time up to midnight Tuesday, November 13th.

This will afford passengers plenty of time to visit various centres to attend Remembrance Day services with their friends.

The Ogden hotel, costing originally around \$150,000, has been purchased by the provincial government, to be turned into a home for sick and aged unemployed. The price paid was \$22,000.

BLAIRMORE UNITED CHURCH
Rev. Albert E. Larke, Minister

Serve the Church that the Church May Serve You.

Services Sunday, October 28th,
the minister in charge.

11 a.m.—SENIOR SCHOOL

2 p.m.—JUNIOR SCHOOL

7.30 p.m.—PUBLIC WORSHIP.

Rev. A. S. Partington, B.A., Rector

Services Sunday, October 28th:
Sunday School at 10 a.m. in the church.

Holy Communion at 11 a.m.

Services on this day will be conducted by J. V. Rewers, of Fernie, B.C.

BLAIRMORE PUBLIC LIBRARY

Books being placed on the shelves and available for Saturday, October 27th, are as follows:

"The Gold Hunters," James Oliver Curwood; "The Monster Men," Edgar Rice Burroughs; "The Emperor of America," Sax Rohmer; "Murder at Belly Butte," T. H. Longstreth and Harry Vernon; "Bones in London," Edgar Wallace; "In Red Indian Trails," E. S. Ellis.

We wish this week to thank Mr. Louis Pozzi for a handsome donation of books. A few of these books will be prepared and placed at the disposal of our members this week.

The Library hours are Tuesdays, Thursdays and Saturdays from 7 to 9 p.m. The fees are \$1.00 for residents and \$2.00 for non-residents per year. Non-resident students attending Blairmore high school admitted under resident membership fee of \$1.00 per year.

Do It Now!

IF YOU ARE in doubt about registering for a vote in School and Town elections, make sure you do it at the town office. Do it NOW! After Oct. 31 you'll be too late. Returns are open at election time.

To make sure you'll get a vote, make sure YOUR NAME is on the lists for School and Town.

Note, this notice is not being paid for, but inserted gratis for the benefit of our citizens.

SUNDAY SCHOOL LESSON

OCTOBER 28

THE CHRISTIAN'S STANDARD OF LIFE

Golden text: And be not drunken with wine, wherein is riot, but be filled with the Spirit." Ephesians 5:18.

Lesson: Ephesians 4:17-5:21.
Devotional reading: Colossians 3:12-17.

Explanations And Comments

The Old Man: The Unbelieving Gentiles. To the Gentiles Paul writes, "warns his readers against the life of non-Christians. His opening words, "This I say therefore and testify in the Lord, that ye once were outside of Christ," verify I say unto you, he has being the same solemn force as the latter, calling attention to the weightiness of the truth that are to follow, the importance of his audience's hearing and heed.

And the exhortation is, "that ye longer walk as the Gentiles also walk." Paul is writing to Gentiles, and in these words there are implied commands, for they separate his readers from the non-Christian Gentiles. But the readers are living in the midst of them. Christians are not immune of being influenced by their evil ways, and therefore Paul earnestly warns them again.

Do not live as they do, he urges, for they walk in darkness, without God, their consciences are hardened into callousness; they have given themselves over to the grossest sensuality.

The New Man: Believing Gentiles, 4:20-24. Paul now tells his readers that, unlike the Gentiles of whom he has been speaking, they had learned the truth of the gospel of Christ, so that to hear him and were taught in him does not imply any doubt as to the fact. The clauses that introduce the reader to the new man are to be taken as if the word may be rendered, "as it may be assumed that Christ was the sum and substance of the message ye received, and that ye were instructed in fellowship with him." The manner and character of this instruction is further defined as even more than as in the past. In the historical Christ, Jesus of Nazareth, are embodied the true standards of living virtues, the motives, the purity, the holiness, which followers are expected to accept, to assume, repeat, "The word may be rendered, 'as it may be assumed that Christ was the sum and substance of the gospel in the fullest sense 'the way, and the truth, and the life,' said Jesus."

Mr. Charles Erdman.

"He must 'put away the old man', their old selves, with all the vanities and vices which they had before they knew Christ, and being 'reborn' in the Spirit of the new man, the new selves, 'that after God hath been created in righteousness and holiness and truth.'

Recipes For This Week

(By Betty Barclay)

CARROT PUDDING

1½ cups crumbs
1 tablespoon butter
¼ teaspoon salt
½ cup grated carrots
1 teaspoon baking powder
1 cup raisins
½ cup chopped dates or prunes.
½ cup raisins
½ cup chopped figs
½ cup ground Brazil nuts
½ lemon

Toast the crumbs and mix them with the butter. Salt the carrots, which have been grated or put through the meat grinder, and add them to the crumbs. Next add the molasses, the fruit, nuts, lemon juice and grated rind. Mix all well together and stir in the baking powder. Turn into a well-greased mold and steam for four or five hours. Serve with a raisin sauce.

TREASURE CHESTS

(Serves Six)

6 bananas
½ cup orange juice
2 tablespoons brown sugar
Choose thoroughly ripe bananas, with brown or spotted skins. Bake bananas in skins about 15 minutes. Split skin carefully down one side; remove pulp; mash; and add orange juice and sugar. Return to skin. Serve at once while warm.

Twelve million letters were carried in the aircraft of Imperial Airways during a recent period of 12 months.

Droughts, however, never seem to reduce the spinach crop.

Little Journeys In Science

COAL

(By Gordon H. Guest, M.A.)
A century ago, the great British statesman, Sir Robert Peel, said that the future belonged to the nation which could produce the most coal. Certainly the importance of coal cannot be denied. There is little doubt that the sudden curtailment of the world's coal supply would be an unbearable blow to our civilization. In transportation, manufacturing and heating, it is widely used, and the production of those mighty tools of man, iron and steel, depend upon it.

Coal is known to the scientist as a carbonaceous mineral, because carbon is a fundamental part of its structure. Formed from the luxuriant vegetable growth of early geological ages, it is the result of the slow decomposition of these materials in a limited amount of air. Geologists tell us that the conditions most favorable for its formation are found in fresh-water lakes bordered by marshy land, on which an abundance of vegetation grows. The plants grow, decay, and grow again, pushing gradually upward on the bed of peat, which is the first stage in the development of coal. Gradually, as more material is added, the layers of peat are buried by masses of clay and sand which harden into rock, and when the heat and pressure become great enough, the coal becomes first bituminous and then anthracite, or hard coal.

In 1901, a quantity of coal, which is now being taken from mines, was deposited forty million to one hundred and fifty million years ago. Fifteen thousand million tons of coal are now estimated to be left in the earth at the present rate of consumption, the earth's coal supply will be exhausted in five thousand years.

No Odor Rush

During 1901, a Military District in Chicago was sued by a construction company. Recently the case was finally wiped from the court dockets because of the failure of the complainant to prosecute. At least it can be said that the court did not act hurriedly, or in a manner that in any way deprived the plaintiff of his civil rights.

For every 100 new automobiles that are sold to-day, about 167 used cars are sold.

The dog population of London is estimated at approximately 500,000.

Famous Geologist Dead

Sir Edgeworth David Blew Up Mes-
sines Ridge In 1917

Sir Edgeworth David, the famous geologist, the first man to reach the south magnetic pole, died in Sydney (Australia), aged 76. He was born in Wales. Sir Edgeworth was scientific officer with the Shackleton expedition in 1907-9. In 1915, although 57, he went to France on active service as a sapper. He rose rapidly to the rank of lieutenant-colonel, becoming geologist to the British Armies on the Western Front. He was born when the blowing of the mine was still a secret. On June 7, 1917, thus preparing the way for the British advance. He made millions for Australia through his discovery of minerals.

Combats Invading Bombers

New Method Devised To Offer Pro-
tection Against Aerial Attacks

The "invisible smoke" barrier against invading bombers has been perfected that a squadron of fighting planes was forced to land during recent trials.

The engines of the planes were choked by the "metal dust" into which they flew.

This invention means that cities threatened with attack from the air may be protected until some method of protecting the aircraft from the "invisible smoke" is discovered.

—Since the invention of printing in the fourteenth century, nearly 900,000,000 volumes of the Bible have been printed.

To Make Whitewash Glossy
A whitewash can be made glossy like paint by dissolving a pound of cheap bar soap in a gallon of water and adding to it five gallons of thick whitewash mixture. Lime can be made more soluble and will penetrate further into the wood by adding a pint of molasses to every five gallons of whitewash.

MAKE YOUR FALSE TEETH HOLD FAST

Eat, talk, sing and shout and never fear embarrassment. Your false teeth stick all day long when you spring them. With Canapar Paper Products fast snugly—comfortably—they can't slip. Prescribed by world's leading dentists they know it's the best! Costs but little—say druggists.

**TELL YOU HOW TO COOK
3 VEGETABLES AT ONCE
IN THE SAME SAUCEPAN
with no odor... less cost... better results**

Place each in its own bag made from Canapar Cookery Parchment. You seal in all the mineral salts and flavor, this way . . . and there's no odor, not even from cabbage or cauliflower. You need only use ONE burner—turned low.

And vegetables are only one food that can be cooked better with Canapar. For instance, when boiling or steaming fish, all the goodness and flavor are retained — and there's no odor — no sticky pots and pans to scour. This alone makes Canapar worth using.

Remember that Canapar won't absorb odors. You rinse it off—hang it up to dry and use it repeatedly. Try it as a dish cloth, especially for glasses—it does not shed lint.

THE TENDERFOOT

By
GEORGE B. RODNEYAuthor of "The Coronado Trail",
"The Canyon Trail", Etc.

SYNOPSIS

"You've fallen heir to a half-share in plenty of trouble," the lawyer told Gerald Keene. "The Broken Spur has been systematically looting the ranch, and old Joe Carr, your partner, is driving them off."

But Keene decided to go see what was happening for himself—not as Gerald Keene, full owner of the High-Crest Ranch, but as Duro Stone, bartender in a Montgomery Ward wild-west outfit.

Dad Kane, desert rat and luckless prospector, now involved in oil well Dust and Spruce Springs, owners of the Broken Spur ranch, who had grubstaked him, or his discovery of a rich gold mine, and shows samples of it to him. He sees Broken Spur men rustling Hour-glass cattle and protest agains it.

Joe Carr's daughter, Edith, implores Dad Kane to help her to make an acquaintance, saying when she walked with a man, it would not be with a squaw man. He plans revenge, but has no opportunity so far. Affairs on the ranch going from bad to worse, Joe Carr takes to drink.

(Now Go On With The Story)

CHAPTER III.—Continued

Somehow the Broken Spur always found a market. Broken Spur cattle were shipped periodically to California to be fattened to bring the highest prices in a falling market while the Hour-glass could not pay its freight bills for such shipments. Poor old Joe Carr saw the Hour-glass go to pieces under his able hands and he fought in vain for the rest of it. The suitors from Soda Springs was the last straw.

"I know damed well they've been robbin' us! deaf, dumb and blind!" he snapped to big Crewe, his foreman. "But I can't prove it. What can I do? There's nothin' I can do. Frank..."

"Huh. You might try leavin' the cork in that whisky bottle for a change," said Crewe, who was not unaptly named Frank. Carr cursed him and on that occasion left the cork in the bottle . . . for an hour.

"I wish to God I could get track of that young fellow Gerald Keene," went on Carr carefully.

"You know how old Peter Vinton left the Hour-glass?" Carr continued about his business and if one of us dies, the other gets

the half of the one who dies. Funny way to leave a ranch. Nobody can know you're leaving.

Keene. Nobody knows his address. I've been runnin' into the same right along by borrowing

can to finance the Hour-glass for the last few years. I've been doin' it on my own responsibility. It ain't right that he shouldn't pay his share . . ."

"Listen here, Joe . . ." Crewe wheeled on his employer. "I know you for a lifetime as men count years. As a cattle-man nobody can teach you a thing about the business.

As a distiller you ain't much but a steady consumer of bottled goods you can't afford to buy in medall. No hard liquor facts that's right face up on the table. It's liquor that's been put the ranch in the hole.

Red liquor. It might have happened anyhow but I know it helped a bad master to git worse. It's time somebody tellin' you . . ."

Carr began a futile protest but Crewe cut him short.

"You'd never have got into that game in the Silver Dollar but for red liquor. That game cost you ten thousand and you know it. You'd never have tried runnin' a horse for the Coahulla Sweepstakes if you hadn't been so full you couldn't hit the ground with your hat. Then you made a bet you'd win it and when you sobered up you wouldn't even hedge. A cattle-man's got no business runnin' a horse except at the end of his rope. You know it when you're sober, too. That's what makes me so damned hot."

"I was tryin' to win back what I lost," said Carr.

"Hell, man! You know that. A fat chance you had to win it!" Three strangers settin' in the game an' you with the only roll in town with Spike Goddard sittin' in the game and a bar mirror behind you that you never even saw till two late. Man, you were askin' for trouble."

"Well, I got it all right at that Listen here, Frank. Is there any way I can locate this man Gerald Keene? Can't you think of some way?"

"Simon Burwell of the Drovers Bank in Cato handled the ranch's business didn't he? Better write to him. What's the trouble, Joe?"

"Money," said Carr hoarsely. "I need money, Frank, and that's a fact!"

"Can't you borrow enough at the Seco bank to tide you over? Old Peogram, the president there, ought to help you."

"Hell, man! It's old Icehouse Pe-

Now!.. new aid in PREVENTING Colds

Remarkable New Formula is Especially Designed for Nose and Upper Throat where most colds start

AFTER years of research on the problem of colds, Vick Chemists have developed a remarkable new preparation—Vicks Va-tro-nol. This exclusive Vicks formula is especially designed to aid the functions which Nature has provided—in the nose—to prevent colds, or to throw them off in their early stages. Used at the very first feeling of nasal irritation—just a few drops up each nostril—Va-tro-nol helps to avoid colds altogether.

Relieves Head Colds at Every Stage

If irritation has reached the stuffy, sneezy stage—Nature's usual warning that a cold is developing—prompt use of Va-tro-nol helps to throw it off in the early stages.

Where irritation has led to a clogged-up nose (a stuffy head cold or nasal catarrh) Va-tro-nol penetrates deep into the nasal passages—reduces swollen membranes—clears away clogging mucus—brings welcome relief.

Va-tro-nol is real medication—not mere "oil drops"—yet is absolutely safe for children and adults. It has been clinically tested by physicians—approved by specialists.

Easy to use, anytime or place—at home or at work. Keep a bottle always handy.

Introduces Vicks Colds-Control Plan

This new aid in preventing colds is the ideal companion to Vicks VapoRub (modern external treatment for colds). Together with certain simple rules of health, these two preparations form the new Vicks Plan for Better Control of Colds. Records of thousands of clinical tests—made over a period of two years, and under medical supervision—indicate that Vicks Plan greatly reduced the number, duration and dangers of colds. (Full details of the Plan in each package of Vicks VapoRub and Vicks Va-tro-nol.)

YOUR DRUG-GIST now has Vicks Va-tro-nol. Also a limited supply of combination samples of Va-tro-nol and Vicks VapoRub—with Vicks Plan folder containing directions for using these twin aids to fewer and shorter colds.

Only Took Two Vacations

Man Was Street Car Conductor For 56 Years

Reuben C. Rice, who retired in 1936 after 56 years as a street car conductor in New York City, is dead at the age of 83. In 1929 he told a reporter: "It's a good job. I'm 78 years old. It has kept me in good health. I thought it was a good job when I was 20, and I think it is now." In his fifty-six years of work Mr. Rice took only two vacations; the first when he was married, the second, in 1925, when the company gave him two week's pay to celebrate his half-century of service.

The number of sheep in Manitoba for the past five years has remained around 216,000, the present year's total, but ten years ago there was only half that number. Sheep were introduced in Manitoba as early as 1880, when the Hudson's Bay Company was commencing to develop the country.

The new teeth of an elephant form at the back of the jaw and gradually work forward, shoving the old teeth out at the front.

Viscose, a material already put to use in the forms of artificial silk, sizing, and cement, is now made into an absorbent sponge.

THAT DEPRESSED FEELING IS LARGELY LIVER

Wake Up Your Liver

Without Calomel

You are "feeling punk" simply because your liver isn't performing its normal function in your bowels. Digestion and assimilation of food, removal of wastes, and your entire system is being poisoned.

What you need is a tonic that will

cleanse your liver rather than salts, mineral water, oil, laxatives, enemas, chewing gum or roasting beans, which are causes of trouble, liver.

Take a dose of Little Liver Pills. Purify

yourself, or take a laxative.

Not hard salmond (nerver). Bits sure,

absorbent, or taste sublimate.

25¢ at all drugstores.

Canadian flour imported into Hong Kong during the first six months of 1938 showed a considerable increase over the figure recorded for the corresponding period of 1933.

Few Minutes Eases Neuritis Pains Now!

DISCOVERY BRINGING QUICK RELIEF FROM PAIN TO MILLIONS

Remember the pictures below when you want fast relief from pain. You can get the method doctors prescribe—Aspirin.

Millions have found that Aspirin eases even a bad headache, or the aching pain often in a few minutes.

In the stomach, in the glass here, an Aspirin tablet fails to solve, or integrate, almost the instant it touches moisture. It begins "taking hold" of your pain.

"Looks to me like you're about right," said Crewe. "Our best hope is to find Gerald Keene."

CHAPTER IV.

"I'm still a-waitin' to hear you tell me you plan to bring that red-headed girl of Joe Carr's to heel."

Spike Goddard poured himself a generous drink and eyed Dustin quickly across his glass. Dustin continued to stare at him. Words finally came.

"There's a lot more than any girl in this now. You poor fool! Can't you see as far as the end of your

practically as soon as you swallow it. Equally important, Aspirin is safe. For sensitive people this Aspirin does not harm the heart.

Remember these two points: Aspirin Speed and Aspirin Safety. And remember, too, that ASPIRIN is made in Canada, and all drugs have it. To get the name BAYER is to get the form of a cross on every Aspirin tablet.

Get tin of 12 tablets or economical bottle of 24 or 100 at any druggist's.

Why Aspirin Works So Fast

What happens in these glasses happens in your stomach—ASPIRIN tablets start "taking hold" of pain a few minutes after taking.

SUBSTANTIAL INCREASE
IN TOURIST TRAFFIC

Alberta enjoyed a substantial increase in tourist traffic during the past season, to judge by the volume of traffic handled through the ports of entry and in the various national parks in the province. Total figures would indicate the number of visitors to the national parks as being over 200,000, including provincial as well as outside travellers, as compared with a figure of 175,000 last year. Most of these came by auto. At the two ports of entry at Carway and Coutts on the international border, considerable increase was shown in the number of cars passing through. At Coutts 39,632 persons were handled in the five months from April to August inclusive, compared with 27,587 in 1933, and at Carway, south of Cardston, 8,829 cars were handled with 30,556 persons in the five months, compared with 6,525 cars and 22,347 persons in 1933. At Banff Park, nearly 100,000 persons in cars passed through the east gate this season, which was an increase over last year. Waterton Park in Southern Alberta had a total of over 36,000 visitors, while Jasper Park west of Edmonton had nearly 10,000 visitors. Winwright Buffalo Park had some 10,000 visitors during the summer, while Elk Island Park, 40 miles east of Edmonton, which is becoming increasingly popular as a picnic ground, had over 50,000 visitors, compared with about 40,000 last year.

TALLER CHILDREN

The medical officer of Health for Berwickshire, says the Edinburgh Scotian, has gone to great lengths to demonstrate, in his annual report for 1933, that modern children are taller but lighter in weight than the children of twenty-two years ago.

In his review he quotes comparative figures which demonstrate that both boys and girls of the present day are much taller than they were previously, the increase in height in the case of the 5½-year-old girl being three inches. As between the sexes, there is also a great difference in comparing 1911 with 1933. Where the boys were formerly taller and heavier than their sisters, in the majority of cases, their superiority has almost completely vanished.

The reason given by the doctor for the improvement in the physique of the girls is that fashion has tended to allow more sun and fresh air to gladden their skin, and this has had the effect of strengthening their physique. This is a point of great importance, and should be noted by all parents.—Ex.

THE FOURTH ESTATE*

A four-page tabloid-size paper called The Fourth Estate, has been launched by the Canadian Weekly Newspapers Association. It is to be issued monthly and will contain articles bearing particularly on the weekly field. It will be printed in various weekly offices. The first issue, this month, was printed by the Simcoe Reformer, and it is well produced in every particular, featuring the editorial department of weekly publishing. Subsequent issues will feature advertising, circulation, commercial printing and other departments. The publication is under the direction of the C.W.N.A. president, Adam L. Sellar, the executive and committee chairman.

IN THE DAYS OF

AULD LANG SYNE

Pioneer days in the Canadian Northwest produced some interesting examples of old-time rules and regulations, including customs legislation. The Minutes of a meeting of the Governor and Council of Assiniboia held on the 8th of April, 1862, a copy of which was received by the editor of the National Revenue Review recently, dealt with such subjects as horse taking, intoxicating of Indians, liquor laws, rams, fences, debtors, marriage licences, premium on wolves' heads, customs duties, etc. Under the latter heading occurred the following:

All goods imported into the District of Assiniboia from any part of the British Dominions, or from any foreign country shall be subjected to a levy of four per cent ad valorem duty to be estimated at the price current at the original place of export, London or New York, etc., excepting such articles as shall be otherwise specified.

Then follows a list of free goods, including bar iron and steel, all books and publications, scientific instruments, all agricultural machines and implements, all baggage, all seeds, roots and plants tending to the improvement of agriculture, all stationery and school slates, stoves, grindstones, etc.

There shall be four collectors of customs, residing severally at each extreme and middle of the settlement and at White Horse Plain, whose residences shall be houses of clearance. A collector of customs shall have power to administer oaths, to search for and seize contraband goods, and to prosecute defaulters; he shall have power to call constables, and all loyal subjects of Her Britannic Majesty, to his aid and all persons, not constables, so called upon shall be paid by the collector at the public expense as special constables extraordinary, say ten shillings per diem. Each collector shall in addition to his salary, be entitled to one fifth part of the proceeds of all seizures he shall make or cause to be made.

The following shall be the collectors of customs:

William Desse at Point Coupe with a salary of £100 per annum.

Roger Goulet at Upper Fort Garry with a salary of £85 per annum.

Patrick Brundish at White Horse Plain with a salary of £20 per annum.

W. R. Smith at Lower Fort Garry with a salary of £20 per annum.

The following severe penalties were imposed on any persons caught selling liquor or the material for its manufacture to Indians:

If any person without any distinction of race supply or sell to any person popularly known as an Indian, or any member of an Indian nation, the means of intoxication, he shall be sentenced for conviction before a Petty Court on the oath of one or more witnesses he found for each offence as follows:

Two pounds for furnishing any serving utensil, the fine to go to the informer.

Three pounds for furnishing malt, the fine to go to the informer.

Five pounds for furnishing beer or any fermented liquor, the fine to go to the informer.

Ten pounds for furnishing distilled spirits or any other immediate cause of intoxication than fermented liquors, half the fine to go to the informer.

In every case the offender after conviction to be imprisoned until the fine is paid.

In addition to these fines, the offenders shall make restitution to the Indian of all the equivalent which he may have received, if any, for such furnishing.

Under the respective headings, Horse Taking, Rams, Premium on Wolves' Heads, appear the following:

If any person takes another's horse to ride or drive without consent he shall be fined one pound, half of the fine shall go to the informer, and shall forfeit to the owner of the horse all such equipments of any description as he may have used in such riding or driving.

SCANDINAVIANS MAY VISIT
OLD COUNTRY FOR CHRISTMAS

Montreal, Quebec.—An opportunity for Canadian citizens of Scandinavian origin to join a happy travelling family for the purpose of celebrating Christmas in their homeland will be provided by the sailing of the Norwegian America Line steamer Bergensfjord from Halifax on November 30th direct to Bergen, Norway, the gateway to Europe, occupying but 7½ days, with connections to all parts of the European continent, according to Victor E. Eke, passenger traffic manager of the Canadian National Steamships.

The Christmas home-going touring party from Western Canada will leave Winnipeg in special coaches of the Canadian National Railways on Monday afternoon, November 26, getting the benefit of low coach-class fares. The Western group will be joined by the Eastern contingent at Montreal on Wednesday evening, November 28, travelling direct to the ship's side at Halifax. Sleeping car accommodation also will be available. Should the direct sailing from Halifax not be convenient, there is still another opportunity to reach Norway in time for Christmas, for which convenient train services from Canadian points will be provided. This will be by the sailing of the steamer Stavangerfjord from New York on Saturday, December 8, direct to Oslo, Norway, arriving there about December 17th.

THANKS FOR THE APPLES

The Rev. H. R. C. Avison, of Deloraine, Man., writes: "A car of apples containing five hundred and fifty sacks, arrived on October 9th, at Deloraine, Manitoba, sent by Rev. T. J. S. Ferguson, of St. Paul's United Church, Nelson, B.C. Mr. Ferguson was assisted in the gathering of the apples by the ministers of Nelson as by many citizens and high school pupils who went into the orchards and picked the apples. Local firms loaned trucks to load them. The apples were distributed to homes of Deloraine and district, a sack to a family big sacks to big families—and wives are busy today canning and making jelly from the few bruised ones in order to conserve all possible. The appreciation was genuine and widespread and we would be glad if you would give space to an expression of gratitude on our behalf."—The New Outlook.

Matthew Popovitch, one of the Canadian leaders recently released from Kingston penitentiary, was given a rousing welcome when he arrived in Calgary Monday evening. He and Malcolm Bruce addressed a large open air gathering and were later tendered a banquet in the Laurendeau hall.

Death claimed Daniel Morrison, 63 year old brother of Malcolm Morrison, of Midlandvale, at that place on October the 15th. He had been employed for the past twenty years with the International Coal & Coke Company, Coleman, and at the time of his death was in retirement and on a visit to his brother. He was born at Glace Bay, Nova Scotia, and came west 34 years ago. Interment was made in the Drumheller cemetery.

In every case the offender after conviction to be imprisoned until the fine is paid.

In addition to these fines, the offenders shall make restitution to the Indian of all the equivalent which he may have received, if any, for such furnishing.

Under the respective headings, Horse Taking, Rams, Premium on

Wolves' Heads, appear the following:

If any person takes another's horse to ride or drive without consent he shall be fined one pound, half of the fine shall go to the informer, and shall forfeit to the owner of the horse all such equipments of any description as he may have used in such riding or driving.

A premium of five shillings for the head of every large, and two shillings and sixpence for the head of every small wolf, killed within twenty miles of the settlement, shall be paid from the public funds, but the premium the sum of sixpence a head shall be retained by the official who distributes the premium to claimants for his own benefit.

Produced in Canada
A General Motors Product

You will save in
buying a new car
NOW!

SAVE MONEY by buying a new Chevrolet now? Yes...
and in five different ways!

First: We offer the lowest prices in Canada. It costs less to own this car from the very outset.

Second: Time-payment prices are lower now than ever.

Third: We can allow more in trade for your present car—because we have a waiting market for good used automobiles.

Fourth: Your new Chevrolet will cost you less to run than any other car. Less for gasoline—less for upkeep—as long as you drive it!

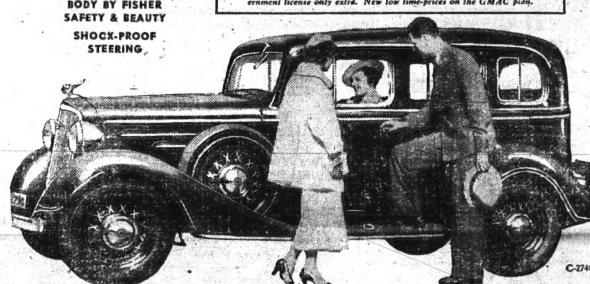

Fifth: Chevrolet offers you the five most-talked-about features of the year. You get more for your money in a 1934 Chevrolet!

And think of the time, trouble and worry you'll save—driving a new, safe car with new tires, new brakes, new battery, safety glass, dead-true steering and lots of "pick-up"!

Master Six from \$844

Standard Six from \$710

Delivered, fully equipped, at factory, Oshawa, Ont. Freight and Government license only extra. New low time-prices on the GMAC plan.

Blairmore, Alberta

The friends of Soviet Russia, who act as the propagandist agents of her theories of government, probably have been organized with a specific purpose. It is a part of the Soviet system to throw publicity tentacles all over the globe. The arguments on behalf of Communism are neither subtle nor forceful when aligned against the experiment as practised in Russia. It is an experiment for which British peoples will not stand as Dean Inge says: "The total destruction of liberty, the placing of life, livelihood and liberty of every man and the honor of every woman at the absolute disposal of State commissaries is far too high a price to pay for the efficiency of cast-iron bureaucracy."—Ex.

"As pure as . . . BEER!"

Many people may be surprised at this unexpected comparison: "As pure as . . . BEER." Yet it is a simple fact that there is no article of food or drink produced with greater care and in greater purity than the beer of today, made in Alberta.

BLAIRMORE

"Dear Sirs!"

ONE disadvantage of selling by mail is that you have no opportunity of seeing your customer, and to know, as individuals, the people whom you are serving.

In our great City stores, our salespeople meet their customers face to face. They talk to them—get to know them—learn their likes and dislikes—are able to help them in their little problems of buying. Gradually this has been lost between the customer and ourselves a personal friendly relationship that we value very highly indeed fine gold." But in the Mail Order end of things, such contacts is almost impossible. Despite this, our customers often thousands of miles away, have little opportunity of cultivating the kind of relationship which we value so highly, and which can be so greatly helpful to the customer.

That is why we are always so happy to receive occasional "personal" letters from our customers. Such messages help us to realize you are not just a cause, that to serve you better. We appreciate beyond words the time and trouble that prompts the writing of such letters, and we value them highly the express. An enquiry about a particular article of dress, or furnishing, or equipment—a suggestion regarding a gift, or a "thank you" word—or just a "friendly word" of appreciation—all these are as welcome to us as a Dollar Wheat!

Drop us a Line!

EATON'S

Rev. J. J. Tompkins, of Antigonish, one of the best known clerics of the province, was in Truro Monday evening to town to Montreal, and paid a much appreciated visit at the News office. Father Tompkins was recently transferred from Caraquet to Antigonish, where formerly he had served for about twenty years. In both parishes and throughout the province he has numerous friends and an enviable reputation as a student of social and economic conditions. Truro Weekly News. Father Tompkins was a visitor to Blairmore last year.

HILLCREST HAPPENINGS

Arith Webster, who has been a patient in the local hospital, returned to her home on Tuesday.

A baby boy was born to Mr. and Mrs. Phil McNeil on Monday.

Yvonne Melnor-Langdale, of Lethbridge, is visiting at the home of Mr. and Mrs. W. H. Moser.

A Social Credit meeting was held in the Union hall on Saturday evening.

Stan Wariner is spending a week's vacation in Calgary.

BELLEVUE HAPPENINGS

On Wednesday last, October the 17th, in the L.O.O.F. hall, Mrs. Watts Goodwin, assisted by a number of friends, was hostess to 160 Bellevue ladies, honoring Miss Kathleen Marcellin, bride-elect of the month. During the evening, the guests played bingo, which was followed by a dainty luncheon. Mrs. Padgett, Mrs. Saynor and Mrs. Prescott also presented a mock wedding number. Mrs. Padgett acted as Rev. Whipplehoppe; Mrs. Saynor as the bride, Miss Sally Sloppystockings, and Mrs. Prescott the groom, Mr. Augustus Hooligan. Mrs. Cranston acted the part of Miss Sophie Shookenbucker, the organist. After a very serious ceremony, and after the groom had taken unto himself a wife or better for worse (mostly the latter), the presentation was made. The evening concluded with the singing of "For She's a Jolly Good Fellow." The best wishes of all go with Miss Marcellin upon her important undertaking. Miss Marcellin was postoffice assistant here, and was the recipient of many beautiful and useful gifts.

Joe Smith, son of Mr. and Mrs. Harry Smith, had the misfortune to fall from a tree while playing with a number of other boys on Friday last, breaking his arm.

Mrs. Foster and sons Roy and Dan returned home Friday, after spending the summer in Macleod.

The local branch of the Canadian Society held a social evening on Thursday in the L.O.O.F. hall. A good time is reported.

Mrs. Beal, senior, who had spent the past month visiting her sons' daughters in Nova Scotia, returned to town on Tuesday evening.

J. Price and J. Dugdale are Calgary visitors, attending a convention of the Mine Workers' Union of Canada.

Mrs. Kromer and family have taken up residence in Blairmore.

James Carlson, who has been away from Bellevue for the past year or so, is in town, visiting with his mother, Mrs. Carlson.

Mrs. A. May, of Medicine Hat, is visiting at the home of her daughter, Mrs. J. Kerr, junior.

George (to little ten-year-old Blairmore school girl): "How much whiskey can a Scotchman drink?"

Girl: "Any given quantity."

Holmes: "Are you fishing with a permit?"

Bart: "No, I'm managing nicely with grasshoppers."

Bill: "Where's your brother, Johnnie?"

Johnnie: "Aw, he's in the house playing a duet. I finished my part first."

Hesitated.

"Your house is on fire, sir," came the butler's voice over the telephone.

"Good heavens!" cried his master, excitedly. "Where's my wife? Is she safe?"

"Quite safe, sir."

"And my daughters? Are they alright?"

"Alright, sir. They are with their mother."

"And what about my mother-in-law?"

"That's what I want to speak to you about, sir. Your mother-in-law is asleep on the third floor, and knowing your regard for her comfort, I wasn't sure whether I ought to disturb her or not, sir."

Marshall Hamilton (at a dance): "Madam, will you please get off my foot?"

She (snappily): "Put your foot where it belongs!"

He: "Don't tempt me, madam—don't tempt me!"

COWLEY HAPPENINGS

The Cowley Ladies' Bridge Club met at the home of Mrs. I. Christie on Monday night, when they were organized for the winter months. It was agreed that the drives will be held at intervals of every two weeks at the homes of the members. Prizes will be awarded at these drives.

Mrs. Billie Elton, of Lundbreck, spent a few days this week visiting Mr. and Mrs. Robert Littleton.

James Smyth and daughter Mur, and sons Edy and Harry, are on an extended motor trip to various points in the U.S.A. and Canada.

Mrs. Albert Schamborn, of Washington, is paying a visit to Mr. and Mrs. John Barr at the North Fork.

Mrs. Ed. Cowin has gone to Calgary for a couple of weeks' visit with her daughter, Mrs. R. Easterbrook, and family.

Jack Cowin entertained the Cowley young folks at his home on Friday night, when the entertainment for the evening took the form of a card party and dance. Prizes at cards were won by Miss Edith Murphy, ladies' first; Miss Sylvia Murphy, consolation; Gordon Swart, gent's first; Jack Bundy, consolation.

A public meeting was held in the Masonic hall on Thursday last, for the purpose of arranging sale of

rural lines of the government telephone system to its subscribers.

The meeting was presided over by W. R. Cochran, while Mr. Phillips, district commercial manager, outlined in a clear and able manner the whole scheme and the reasons for such action, stressing the fact that unless the scheme was adopted, there was no other alternative than scrapping the lines. Accordingly, a resolution was passed to the effect that the meeting was in favor of purchase and a general committee of subscribers was named to canvas the district with a view to organization of mutual companies. The following have the matter in hand: C. Elton, R. P. McIntosh, F. S. Burles, H. S. Lank, B. Lynne-Staunton, D. E. O'Sullivan, G. F. Houston, C. Casselman, J. S. Hewitt, A. E. Schamborn, L. M. Cleland, A. J. Snyder, L. Hermann, C. Linville, P. R. Dennis and G. Bowmer.

It is hoped that through this committee's efforts all the old subscribers, as well as some new ones, will be lined up.

At a special meeting of the Cowley Girls' Club, held on Tuesday, arrangements were made to hold a succession of whist drives at intervals of every two weeks throughout the winter months, with the understanding that the proceeds from these be used to make a tennis court when the weather warms up in the spring. The first drive will be held on Monday night next. The club has bills out and all necessary preparations are under way to stage a dance in the L.O.O.F. hall on the night of November the 16th.

The Cowley high school girls are making arrangements for a card party and dance, to be held in the school house on November 2nd.

The Doukhobors, who have now finished threshing, report some very good yields. George Maloff threshed one field of a hundred acres that averaged 40 bushels to the acre. Many fields in the district were in the neighborhood of this average. These people have wonderful gardens this year, and have stored away for winter use large quantities of potatoes, rutabagas, cabbage, carrots, beets, etc.

Holmes: "Are you fishing with a permit?"

Bart: "No, I'm managing nicely with grasshoppers."

Bill: "Where's your brother, Johnnie?"

Johnnie: "Aw, he's in the house playing a duet. I finished my part first."

Hesitated.

"Your house is on fire, sir," came the butler's voice over the telephone.

"Good heavens!" cried his master, excitedly. "Where's my wife? Is she safe?"

"Quite safe, sir."

"And my daughters? Are they alright?"

"Alright, sir. They are with their mother."

"And what about my mother-in-law?"

"That's what I want to speak to you about, sir. Your mother-in-law is asleep on the third floor, and knowing your regard for her comfort, I wasn't sure whether I ought to disturb her or not, sir."

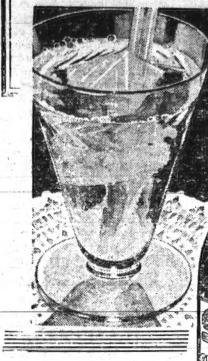

Marshall Hamilton (at a dance): "Madam, will you please get off my foot?"

She (snappily): "Put your foot where it belongs!"

He: "Don't tempt me, madam—don't tempt me!"

The "Toll Of The Road"

When is a half to be called to the ever mounting toll of deaths and serious injuries attributable to automobile accidents.

It was well nigh impossible to pick up a newspaper these days without finding a tragic headline recording one more,—or several more,—fatalities and to read that some promising life has been snuffed out or the community has lost the services of some of its outstanding citizens.

If the total of killed and injured in automobile crashes of one kind or another, and from one cause or another, in all countries throughout the world could possibly be ascertained each and every day, and then made public daily, it would perhaps shock the consciousness of most people. The opinion may be ventured that many a war has been fought in which the average daily casualties were not as great as to-day's average "toll of the road".

If the same number of men, women and children were being killed and injured each day and every day in a war being waged on the North American continent, our newspapers, peace societies, churches, governments, would be glad to demand that a stop be put to the carnage.

But despite the slaughter and suffering, merely the result of automobile accidents, there is a desire to give expression to some polite words of sympathy, wonder why there should be so many accidents, and then pass on to discuss the price of wheat, the result of the international yacht race, or the outcome of the world's baseball series.

Governments and communities the world over have improved and continued to improve roads and main highways. Hundreds of millions of the taxpayers' money is being spent annually in doing so, while the maintenance of these higher standard highways costs tens of millions more. And the better the roads, the more accidents.

Automobile manufacturers continue to take advantage of these better highways to turn out more powerful and even faster cars. They equip them with better brakes, better tires, safety glass, better devices of every conceivable kind, and then they are turned loose on the highways.

Volumes of laws and regulations are passed to control the operation of these cars and traffic regulations of many kinds are approved and ordered to be enforced. Some of them are; many are not. In fact, without a traffic officer posted every few miles and on every road, complete enforcement of the many laws and regulations is physically and practically impossible. People know this and proceed to ignore laws and regulations enacted for the protection of themselves as well as other people.

Glaring headlights which blind the driver of an oncoming car; only one headlight burning; no rear light; overtaking and passing and then cutting in ahead of another car; and doing so at a high rate of speed; tearing up an incline in entire ignorance of the fact that another car may be mounting the other side; dashing in from a side road on to a main highway without stopping or slackening speed; operating cars with defective brakes—but what amount of regeneration? These and many other violations of law and regulations are daily sending people to their deaths or to live on helpless, suffering cripples.

When is it going to stop? How is it going to be stopped? Or have people become so reckless and so callous of death and suffering, and so careless of the rights of others, that they are quite satisfied that the "toll of the road" should go on mounting higher and higher?

The passing of even more stringent laws will not stop it; although they might prove, for a time at least, a greater preventive. The better enforcement of existing laws and regulations would help, especially if the penalties for violation of them were made much more severe. More and still more education of the people would ultimately bring some results.

But in the final analysis there is only one way in which this black blot on our present day civilization can be removed. The individual citizen must do it. Education, laws, law enforcement alone will never accomplish it. It is that strong, almost all-powerful Human Factor, which so many people to-day are inclined to ignore in the realms of society, economics and in relation to all public policies and acts, which constitutes the weak link in the chain of public conduct and public relationships.

Individuals must take this great problem in hand. They must not only understand and obey the law themselves, but whether they like to do so or not they must individually become guardians of the public weal and take an active part in solving the problem, rather than maintain a meek attitude of non-resistance. Let George do it, and relying on law and policemen to do what law and policemen alone can never do.

Print Shop Of William Lyon Mackenzie May Become Museum

If it should prove to be possible to restore William Lyon Mackenzie's old print-shop at Queenston, Ontario, and furnish it, as it is suggested, with the type of equipment used in publishing the first issues of the Colonial Advocate, the building might very well become a museum for the display of early printing equipment and early specimens of the printer's art. In the days of the "Patriots" and the famous lead to confederate guard of the part of visitors. Mackenzie was one of the first newspaper editors to fight and suffer for the freedom of the press in Canada, a principle now universally acknowledged, and his efforts in that behalf are entitled to greater recognition than that which is generally accorded them.

Four new telephone exchanges are opened in England and Wales every month.

Looseness Of the Bowels During the Summer Months

It is seldom, during the summer, that most people are not troubled with some form of looseness of the bowels.

Generally it develops into Diarrhoea, Dysentery or Summer Complaint, and had tendency to weaken the system.

Do not check the discharges too suddenly.

Do not experiment with a new and untried remedy, but take Dr. Fowler's Extract of Wild Strawberry, a remedy which has been used by thousands of families during the past 88 years.

Do not accept a substitute. Be sure and get "Dr. Fowler's" when you ask for it.

Put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Only One Drawback

Johannesburg People Do Not Like Cattle Roaming On Streets

Johannesburg, it is almost superfluous to say, is a very progressive city. We knew this for ourselves and even if we didn't, there are plenty of facts and figures among visitors who come here and tell us so. So rapid, in fact, is our advance, that Professor Coulter of the U.S.A. was made to feel like Rip Van Winkle on revisiting us after only five years' absence. "We have," he tells us, "an integrated communal machine, a group co-operating various agencies, a long-time plan, a city social-conscious, dynamically interested, with a clear-cut purpose." He might have added that we also have a system which permits horned cattle to run loose in the principal streets. Very few modern cities can say the same.—Johannesburg Times.

INDIGESTION?

Then Try KRUSCHEN AT NO EXPENSE

If you suffer from loss of appetite, indigestion, your stomach feels uncomfortable, after meals there's nothing like Kruschen for relief. The little daily dose of Kruschen first stimulates the flow of gastric juices to aid digestion, and then gently compacts the body and unfailingly eliminates all waste products.

Snake On Hunger Strike

Prize Bushmaster In Bronx Zoo Refused To Eat

When Dr. Raymond L. Dittmar, curator of mammals and reptiles at the Bronx Zoo, New York, returned from Trinidad with a living specimen of the bushmaster, deadly tropical snake he had hunted for a quarter of a century he intimated the struggle was over.

But the bushmaster is slowly going the way of his three bushmaster predecessors in the last 35 years at the zoo. He won't eat, he hasn't taken a morsel since he was caught. The freshly killed rat which Dr. Dittmar hopefully tosses to him every two or three days are spurned. So is every other choice tid-bit on the menu for bushmasters.

Woman Dispatches Planes

Looks After Passengers And Mail In Airplane

The aeronautic dispatcher at Concord, New Hampshire, airport is a woman, Mrs. Alice L. Marston.

Four times daily a tri-motored passenger, mail or express aeronautic alights there, and whether it be 35 below zero, as it was once last winter, or 90 in the shade, as it was more than once this summer, passengers are greeted by a trim, diminutive lady who smilingly sends them their tickets; assists them to alight and then tosses the mail bags on board or takes them off.

"Blue" Spells

Reduce some women to the penumbra shadow of their own smiling selves. Other than the Vegetable Compound they are not likely to be coming on. It steadies quivering nerves... helps to tone up the general health... gives them more charm.

WHAT DOES YOUR HANDWRITING REVEAL?

By LAWRENCE HIBBERT
(Grapho-Analyst)
(All Rights Reserved)

(Editor's Note: Interest is increasing in these articles on Character from Handwriting. Many readers are taking advantage of the author's offer to give them a personal reading of their own writing. If you want your handwriting analyzed, read the announcement at the foot of this article.)

I mentioned in an earlier article that a handwriting expert—Grapho-Analyst—is not a magician. He is not able to write a magic wand, can transfigure you. He cannot, by the mere expression of certain weaknesses in your character, change your weaknesses into strong chains of character.

A Grapho-Analyst's position is that an advised. You can dissect your character, but your talents, your probity, your nature are put his finger on the weak points, and he can delineate the good traits that you have.

It is up to the "patient" whether or not he acts on the suggestions of the Grapho-Analyst. If you go to a doctor, and he makes certain suggestions for your health based on his diagnosis of your case, it is up to you whether you follow out his advice.

So with the Grapho-Analyst. This science of reading character from handwriting, which is a true individualistic way of life, can help to tell you and will if you follow the advice that is given you, based on your handwriting, be of inestimable value to you.

Various correspondents have asked certain questions. Some of these have already been mentioned in previous articles, but it will be well worth reiterating one or two of them. Because in any consideration of the value of Grapho-Analyst, there must be a question of the value of Grapho-Analyst.

Can handwriting tell all in mind. We all know of women who have very strong qualities and virile personalities—who act like men, and yet cannot seem to make them known. That these women write like men. This is because there are certain definite, masculine qualities—aggressiveness, for example. This shows in the handwriting.

And some men are very effeminate. They write like many women. And these characteristics show up in their handwriting. It is possible to lay it down as a basic law, that sex can be shown from handwriting.

Is it possible to diagnose ailments and disease from handwriting? Yes, and it is possible to detect heart trouble, for instance, which can be diagnosed from handwriting. But this angle of Grapho-Analyst is surely the most interesting in the early experimental stages.

Nothing definite or scientific can be laid down in this matter, at the present time. For this reason, Grapho-Analysts do not attempt to inform questioners as to their specific ailments.

Grapho-Analyst is a scientific development of character from handwriting, and, as such, is of tremendous value to you. It is definite and unassailable on these points, and in that regard can exceed a tremendous power for good.

Do you want to know the traits of character that your handwriting reveals? Then learn the means of awaying your whole future. And do you wish to know the secret characteristics of your friends? McFARLAND MAY RETIRE FROM POST INSIDE YEAR

Winnipeg.—John L. McFarland, general manager of the central selling agency of the Canadian Wheat Pool, told a private gathering of delegates to the annual meeting of the Manitoba Wheat Pool he expected he would retire from his post in about a year.

Taking an optimistic viewpoint of world marketing problems, Mr. McFarland said his "job" should be over in a year and that he would then be able to turn complete pool management over to the elected pool representatives.

The wheat surplus was fast disappearing and the glut on the market was being eliminated, he said, in spite of the operations of Argentine, "the bad boy" of the London wheat agreement. Once this big problem is over, he said he could see no reason for retiring from the pool.

Premier John Bracken of Manitoba also addressed the grain pool, taking part with Mr. McFarland in the "heart-to-heart" talk with the growers. The Manitoba government would never have apologized for making advances to the pools, declared Mr. Bracken in a reference to the difficulties which the pools encountered following 1929 and 1930 operations.

Dealing with Manitoba affairs, Mr. Bracken said the Manitoba government probably would finish the financial year with a balanced budget, exclusive of relief expenditures.

Accepting financial reports showing net payments to pool farmers of 65½ cents a bushel on the 1933-34 pool, delegates to the annual convention of the Manitoba Wheat Pool voted to continue the voluntary pool policy with privileges of accepting street prices for their grain.

The delegates discussed and approved the federal government's action in establishing a national relief commission and saw in the appointment of the commission another step towards planned agriculture, long sought by farm organizations of the West.

Grain Smugglers Arrested

U.S. Farmers And Farm Laborers Have Admitted Guilt

Fargo, N.D.—Fourteen Tower county farmers and farm laborers, alleged by the government to have smuggled thousands of bushels of Canadian wheat into the United States and sold it, pleaded guilty in United States district court before Judge Andrew Miller.

Passing of sentence was deferred at the request of P. W. Lanier, United States district attorney, until the Grand Jury term of court which opens Oct. 23.

Those in court charged either with directly hauling the wheat to American markets or with conspiracy in connection with the delivering of the wheat to others who marketed it.

Arrest of Thomas C. Wildish
Ellisberry elevator man, alleged by the government to be one of the key figures in the smuggling, was announced a few hours before the 14 Tower residents appeared for arraignment.

Winnipeg.—Demand in the United States for soft grains for making macaroni was seen here as the cause underlying the smuggling of wheat from Canada across the international boundary into the United States.

Miners In Hospital

Focs, Hungary.—From many parts of the world came messages of sympathy and encouragement for the 1,200 miners who sustained a day underground hunger strike in a dramatic fight for better wages. One hundred and ten of them were in such a condition they were taken to a hospital after they were brought out.

Fruit For Drought Areas

Toronto, Ont.—The national relief committee of the United Church of Canada announced it had arranged during the last fortnight for transportation to needy parts of Saskatchewan 40 carloads of Ontario fruit and vegetables. Many of the cars, the committee said, were filled on a community basis.

For Water Survey

Winnipeg.—Appointment of a Dominion government commission to investigate means of water conservation in southwest Manitoba was urged here by Mayor Ralph H. Webb, upon his return from an inspection trip in that area.

Alberta Resources

Royal Commissioners Consider What Sum Dominion Should Pay

Ottawa.—The royal commissioners considering what sum the Dominion should pay Alberta to even up accounts in the handing back of the natural resources to the province was given an outline of the credits claimed by the Dominion. Among other things the Dominion should be allowed credit for a portion of the cost of the Hudson Bay Railway, it was contended by J. MacGregor Stewart, of Halifax, who is one of the Dominion council.

The meeting of the Hudson Bay Railway brought on an interesting discussion in which the three commissioners, Mr. Justice A. K. Dyson, Mr. Justice T. M. Tweedie, and George C. McDonald took part.

Mr. Stewart took the view the Dominion embarked on the Hudson Bay Railway because it held the natural resources of the three prairie provinces and planned to pay for it out of the money obtained from disposal of these resources.

Now that the Dominion had to account for all the monies it received from the sale of lands and other resources to the provinces, the provinces, should receive credits for obligations the administration of these resources brought upon it.

Commissioner Tweedie asked Mr. Stewart if the Dominion government had not borne the cost of developing other ports in the northern territories, and added, "Mr. Justice."

Tweedie suggested the cost of port developments in Nelson and later in Churchill might be considered a national obligation. About 38 per cent. of the entire cost of the enterprise went into port developments.

Further it was claimed that the Dominion should be given credit for relief and seed grain given to farmers in Alberta while the natural resources were held by the Dominion. Mr. Stewart declared the relief was granted because the Dominion held these resources, and the farmers helped were settlers on Dominion land.

Sell Lands Too Cheap

Criticism Of Disposal Of Alberta Lands By Federal Government

Ottawa.—The Dominion government was criticised for disposing of Alberta farm land, either by giving it away to settlers or selling it at \$5 per acre when as much as \$25 per acre was being realized on similar areas. M. M. Porter, counsel for Alberta, appearing before the natural resources commission, was arguing the claim of that province for compensation for alienation by the Dominion government of 25,000,000 acres of western land.

Mr. Porter quoted extensively from sales records between 1908 and 1930 to support his claim the lands could have been profitably disposed of.

A number of the lands held in an attempt to avoid lands situated in closely-occupied areas, with large profits of from \$6 to \$25 per acre, were by the act of 1908 either given away for nothing as homesteads, or sold at \$3 per acre as purchased homesteads or pre-emption.

Must Secure Licenses

Radio Branch Is Getting After Many Delinquents

Ottawa.—Radio owners delinquent in paying their license fees may find the long arm of the law reaching after them. The radio branch of the department of marine is now resorting to legal action.

A limited number of prosecutions have already been launched on a wide front and it is proposed to follow them up with more. The prosecutions are widely scattered in order to attract public attention. So far the prosecutions have been quite effective and license fees are now coming in at a better rate.

Makes Quick Recovery

Warsaw, Poland.—The paralysis which kept Peter Millevic motionless for 30 years took a sudden turn for the better—too sudden for a couple of would-be robbers. When the robbers stalked into the paralytic's home in the village of Markeniski, near Wilno, the invalid suddenly vaulted out of bed, grabbed a gun, and began to fire away at the startled marauders, who promptly fled.

Dominion-Wide Broadcast

Moose Jaw.—The Philharmonic Society of Moose Jaw will broadcast over a Dominion-wide hook-up on November 18 at 8 o'clock in the evening. The broadcast will be broadcast from St. Andrews' Anglican church. The Philharmonic Society of Moose Jaw is one of seven Western choirs asked to put on a program for the C.R.C.

For Better Films

National Council Of Women Deplores Low Standards

Ottawa.—With the declaration that "low standards in the motion picture field have a direct relationship to juvenile delinquency and crime," the National Council of Women lined up in support of measures to clean up the pictures.

The council carried unanimously the following resolution:

"Realizing the powerful influence of the cinema in molding and educating public opinion;

"Realizing the too fast low standards in the motion picture field have a direct relationship to juvenile delinquency and crime;

"The National Council of Women in annual meeting assembled, would therefore strongly urge all its federations, local, provincial and national, to lend their support to efforts being made at the present time to secure a production of pictures which would assist in character development and provide a medium of wholesome recreation."

A resolution which deplored "the increasing tendency of the Reeds to make films in many parts of Canada to a million-dollar pageant and a diplomatic ceremonial" sparked discussion but was referred to the committee of the League of Nations committee so it may go to local councils for expression of their opinions thereon.

DOUKHOBORS TO SELL LANDS IN SASKATCHEWAN

Winnipeg.—Peter Vergin, president and chairman of the board of directors of the Christian Community of Universal Brotherhood, Ltd., announced the entire holdings of the corporation in Saskatchewan were up for sale.

Speaking through an interpreter, Mr. Vergin declared he could not at present disclose future plans for the sect in Saskatchewan.

First announcement of the sale came from John McDougall, an advisor to the Doukhobor chief. Bids by dealers were being called for on the properties, said, "They will include the holding in Saskatchewan," said Mr. McDougall. He said the bids would be received here.

The Christian Community of Universal Brotherhood owns 36,000 acres of land in Saskatchewan and has a membership between 6,000 and 8,000 persons. It was believed here many would remain on the land in Saskatchewan while others might move to British Columbia where the brotherhood owns 40,000 acres which is not all being cultivated.

Failed To Take Precautions

King Alexander Lost Life Because He Did Not Wear Bullet Proof Vest

Belgrade.—King Alexander of Yugoslavia lost his life because he did not wear his bullet-proof vest. "This proposed service would not be a hit or miss affair," declared Mr. Moor. Air conditions, communication bases and type of equipment had all been closely studied, he continued, and he was convinced there would be a regular air service within two years.

HON. W. J. PATTERSON

Minister of Telephones in Saskatchewan, who announces that the Provincial Government has leased telephone circuits to interested parties for use for broadcasting, telephone communication or for telegraphic use.

Minister of Telephones in Saskatchewan

Minister of Telephones in Saskatchewan

Schedule To Be Covered In 48 Hours

Winnipeg.—Winnipeg to London by air in less than 48 hours and on a regular schedule is the plan of a group of local flyers revealed here.

Roy Brown, Ted Stull, Milton Ashton and Jack Moar, four men prominent in flying in northern Canada who combine more than 25,000 hours of flying experience, are convinced of the feasibility of such a project and see in the "northern route" the base of a daily air service with the Old Country.

The route they have studied lies on almost a direct west to east line from Winnipeg to the Faroe Islands and then south to the northwestern tip of Scotland. It crosses Hudson Bay, Baffin Land, Greenland, and Iceland.

"This proposed service would not be a hit or miss affair," declared Mr. Moor. Air conditions, communication bases and type of equipment had all been closely studied, he continued, and he was convinced there would be a regular air service within two years.

No War Spirit

General Smuts Does Not Think World Is On Verge Of Another Conflict

Dundee, Scotland.—"I do not agree with those who think the world is on the verge of another great war," declared General Jan C. Smuts, empire statesman, who played a leading part in the last conflict, as he delivered his speech at the address to the University of St. Andrews.

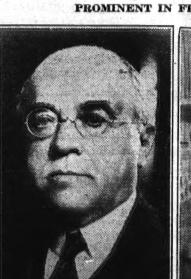

General Smuts, noted soldier and scientist, former prime minister of South Africa, has been rector for the past three years of the 500-year-old university, but this is the first occasion on which he has been able to be present for induction. His term expires in a few months.

Scaremongers were doing their best to create an atmosphere of war, but despite them, and the present lamentable failure of disarmament efforts; and despite the vogue of "silly drilling and strutting about in uniform," he said, "I do not find real war temper anywhere."

Ask Addition To Agenda

Vancouver—British Columbia has suggested that the question of responsibility for unemployment be added to the agenda laid down by Prime Minister R. B. Bennett for the impending conference of premiers on possible constitutional amendments, Premier T. D. Pattullo stated.

PROMINENT IN FRENCH NEWS

Because of the fact that the French people believe the police were lax in not protecting King Alexander of Yugoslavia from assassination, Albert Sarraut, (left), French Minister of the Interior and head of the police force, has been forced to resign. It is also expected that Henri Chevrel, Minister of Justice (right), may be forced out of office due to his department's failure to satisfy the public in its conduct of the investigation into the Stavisky scandal.

Would Abolish Ratio System

Japanese Delegate To Tri-Power Naval Conversations States Position

London.—Admiral Isoroku Yamamoto, Japanese delegate to tri-power naval conversations here, said flatly Japan will demand abolition of the ratio system of limiting naval armaments.

Instead, he revealed, the island empire will seek to substitute the global tonnage basis.

These proposals will be made to representatives of the United States and Great Britain in the course of talks to start here next week.

Yamamoto's announcement came soon after authoritative sources had disclosed the Americans, Norman H. Davis and Rear Admiral William H. Standish, will suggest substantial reduction in general naval armaments and renewal of the Washington and London naval treaties.

Garnet Wheat Standards

Tentative Grades Passed For Nos. 1 And 2 By Committee

Winnipeg.—Leaving incomplete work on the new grain standards committee closed its two-day meeting. Tentative standards were passed for Nos. 1 and 2 Garnet wheat to give the inspection department a basis for grading Garnet separately when the revision in the Canada Grain Act takes effect.

These grades will serve until such time as sufficient quantity of Garnet from the 1935 is delivered to permit of new standards being set.

The sub-committee appointed will deal chiefly with the low grade grains, all other working having been completed during the meeting. The proposal for two grades of feed grain, because of variation in weight, was among the subjects given the sub-committee.

Wheat Export Cut

Australia's Surplus Will Be Less Than Last Year

Rome.—Australia's surplus of wheat for export will be about one-third less than last year, the International Institute of Agriculture estimated.

The institute reported this year's crop at 136,800,000 bushels, as compared with 174,900,000 bushels last year, and the average of 180,400,000 bushels over the last five years. Allowing for a domestic consumption of 55,000,000 bushels, the export surplus will not be much over 80,000,000 bushels.

WHEAT POOL WILL PAY DEBT TO MANITOBA

Winnipeg.—Assurance indebtedness of the Manitoba Pool Elevators, Ltd., to the Manitoba government would be paid in full was made by Paul F. Bredt, Kingman, Man., president, in the directors' report submitted to the annual meeting of the pool organization.

"The progress made in the last three years, despite light crops, is a very definite indication that the Manitoba Pool Elevators will be able to meet its obligations to the government," said Mr. Bredt. "There need be no anxiety on the part of taxpayers generally that any loss will be occasioned by its operations."

The report showed a net operating surplus of \$361,046. Payments of \$184,972 due the government this year had been met in full and the \$48,768 unpaid last year was paid in full this year. The indebtedness of the pool to the government, totalling \$2,100,000 when the pool was reorganized in 1931, has been reduced to \$1,649,402 at present. The balance of the operating surplus, approximately \$125,000, was added to the reserve account.

A payment of about \$60,000 had been made to the Saskatchewan and Alberta pools on terminal No. 1 at Fort Arthur. This plant was estimated to be worth \$50,000 and there remained approximately \$260,000 to be paid the two sister organizations within seven years.

"When reorganization took place in 1931," continued the report, "Manitoba Pool Elevators, Limited, owed the Manitoba government \$2,100,000. This had been reduced to \$1,649,402."

"The progress made despite light crops in Manitoba the last three years is a very definite indication they will be able to meet their obligations to the government in the future, and there need be no anxiety on the part of the taxpayers, generally, that any loss will be occasioned thereby."

CALL FOR FULL PROBE INTO THE ARMS TRAFFIC

Ottawa.—The National Council of Women has called upon the Canadian government to take the initiative in proposing that "a full and untrammeled" investigation be now opened into the activities of British manufacturers and traffickers in arms. The investigation, it was expressly stated, should include any Canadian subsidiaries of these firms.

On motion of Mrs. A. C. Bagley, of Vancouver, seconded by Mrs. Walter Lyman, of Montreal, the council approved the following resolution sponsored by the Local Council of Women of New Westminster:

"That in view of the deadlock in the disarmament conference and of the alarming renewal of competition in armaments and the otherwise inexplicable recent increases in the demand for the raw materials of munitions, revealed by growing budgets for armaments and the extension of war preparations everywhere, the Local Council of Women of New Westminster:

"Appeals to all men and women of goodwill to realize the danger and to join in practical measures for ending the war."

"Regards its conviction that the safety of the world demands an adequate control of the manufacture and traffic in arms and so far as is necessary the sale and supply of raw material, and

"Calls upon the Canadian government to take the initiative in proposing that, in view of the general concern in Canada over the charges made against the manufacturers and traffickers in arms as fomentors of war, charges in which British firms are involved, that a full and untrammelled investigation be now opened into the operations of these firms, including any Canadian subsidiaries that may be indicated...."

Funeral Of Murdered King

Body Of King Alexander Is Laid To Rest In Native City

Balgade.—The body of the murdered King Alexander was placed near those of his ancestors in the royal memorial chapel in his native city of Topola.

While 50 men bore the sarcophagus up a hill through tree-lined lanes to the chapel all activities throughout the country. They mingled strangely with heavy guns on land and sea which roared a mighty dirge.

Trumpeters sounded a farewell "taps" for the dead soldier-king. "Mignot," as Alexander called his wife, Queen Marie, took leave of her royal consort and the doors of the tomb were closed.

New Medicos

Westerners Pass Examinations Of Medical Council

Ottawa.—Successfully passing the examinations of the Medical Council of Canada, held at Montreal and Winnipeg early this month, 49 physicians, including three women, are now entitled to registration as practising doctors. They may become licensed in any province in Canada.

Among successful Western candidates were: Robert Thomas Atkinson, Saskatoon; Paul G. Egnotoff, Saskatoon; William James Fowler, Cabri, Sask.; William Adrian Harrold, Hodgesville, Sask.; John King Kelly, Regina; Donald Albert McBurney, Saskatoon; Maurice Harrison Moffatt, Bradwell, Sask.; Edward William Pickard, Oxbow, Sask.; Ormond Murray Ranson, Abernethy, Sask.

Blaze At Summer Resort
Hudson, Que.—Fire raged through a section of this Lake of Two Mountains summer resort, causing damage estimated at \$250,000. The luxurious club-house of the Hudson Yacht Club, one of the largest ice houses in Eastern Canada, and two Canadian Pacific Railway refrigeration cars were destroyed. A number of homes were badly damaged.

To Make Return Flight
Dublin.—Lieutenant Cesare Sabelli, who crashed in Ireland with Captain George Pond on a recent unsuccessful non-stop flight from New York to Rome, arrived here recently, saying he planned a return flight from Ireland to North America.

A Cowley poet says: "Every little thistle has a sand pile all its own."

Twenty million lives were lost and nations of the world lost \$400,000,000,000 in the world war.

Remember the Bellevue Tennis Club's hard times dance, to be held in the L.O.O.F. hall on Wednesday night next.

Louis Kwizack, boxer who recently performed at Coleman, was given a technical kato at East Coulee, when he won from Gus Volney, of Drumheller.

Mr. and Mrs. Oliver left last week end for their home near Truro, Nova Scotia, after a few weeks' visit here with their daughter, Miss Gértrude, and sons David, William and Roach. The old couple thoroughly enjoyed their visit to Alberta, and particularly the beautiful location and climate of Blairmore.

"Sandy" Leslie, manager of the Few Ranch, Cowley, was a business visitor to Blairmore today.

By injecting a certain serum into eggs, chickens of various colors have been produced.

Scott and Black maintained an average speed of 175.5 miles an hour on the 11,232-mile run from England to Australia.

Procure your tickets on St. Anne's Tombola, Drawing November 7th. Annual bazaar. Evening attractions, bingo and drawings for comforter and tombola. Keep the date open.

Besides a large number of individual entries from western points for the Musical Festival here, there will be the Cranbrook Symphony Orchestra, the Kimberley District Band, the Cranbrook Choral Society and the Anglican Church Choir, all of which will be heard on Saturday.

The Season of Remembrance

YULETIDE—Christmas and the last days of the old year—is a season of remembrance. We remember first that Christmas is the birthday of the Saviour of the world. Then we remember our friends and all those who make our lives worth the living. In modern times, the Christmas tree and great carols are the most useful forms of remembrance. They not only express sentiment as between friends, but are marks of appreciation for service, patronage and good will in the world of business. It is time now to place your order for CHRISTMAS CARDS.

Local and General Items

The Editor will be pleased to receive items for this section, regarding visitors entertained, parties leaving for holidays, on short trips, bridge parties, teas, etc. Phone items in to 11 or hand them in at The Enterprise office no later than Wednesday evenings.

A dance is to be held in the Lumbreck hall tomorrow night.

Miss Winnifred Kidd, of Montreal, has been re-elected president of the National Council of Women.

Mr. and Mrs. S. G. Bannan and Mr. J. E. Gillis were visitors to Lethbridge the early part of the week.

The members of the Oddfellow and Rebekah lodges of Westville recently paid a visit to the Oddfellow's home at Picton, Nova Scotia.

Alberta has shipped to date this year some 9,000 head of finished cattle to the Old Country markets, which is a slight increase over the figure at the same date in 1933.

Afternoon tea, home cooking, homemade candies, etc., November 7th, Columbus hall. Annual St. Anne's bazaar. Fish pond (no license required), grab boxes, etc.

Johnnie Campbell, of Lethbridge, won a technical knockout over Frankie Brooks, at Calgary on Tuesday night. Campbell had been seen in action in The Pass on several occasions.

Medicine Hat proposes to spend \$25,000 on necessary repairs to the waterworks system, to help relieve the unemployment situation. Such a move in Medicine Hat is no more necessary than in Blairmore.

The Golden Apples of the Hespeleride may not have been a myth after all. A Canadian Scout apple was sold at Windsor, Ontario, for \$100. Another brought \$50, and ten a total of \$260. They were auctioned during a Scout "Apple Day".

In support of widows and orphans of men of the merchant marine service, the sum of \$25 was subscribed in a recent campaign conducted in Blairmore by Fred Cooke, organizer of the Alberta division of the Navy League of Canada.

The ladies of the Anglican church will hold their annual tea and sale of home cooking and fancy work at the home of Mrs. Arthur Campbell, west Blairmore, from 3 to 6 on the afternoon of Saturday, December 1st. Donations of goods will be very acceptable.

[Oct. 25th.]

Seven boxes of new machinery have already been unloaded for extensive changes and improvements being made to the McGillivray Coal Company's tipple at Coleman. The greater part of the present plant is to be literally scrapped. The new machinery was imported from England. The result of the improvement will be increased efficiency in eliminating removable impurities from steam coal.

A daily newspaper, commenting on a court case, referred to the acquittal of the accused and used the name of the prosecuting attorney as the accused. The attorney's numerous friends were interested in reading of his "acquittal" on the charge of horse stealing. They believe that the charge, as Mark Twain said of the famous report of his death, was greatly exaggerated.

The Clareholt Local Press remarks, regarding the gasoline price situation: "We know what we would do if we were in charge of the provinces natural resources. We would get full information on comparative import charges and then set out to see why Alberta people had to pay eight cents a gallon more than the people in Ontario for gasoline. What are governments for if not to guard the people's interests? The oil industry is entitled to the same regulating influences as the wheat industry; but as long as we pay and don't squeal, we'll have to pay the big prices. As it now stands, oil in Alberta as a natural resource is a liability to the province."

Okotoks Elks are holding their annual indoor carnival this week end.

PIANO TUNING—J. P. Avery, of Calgary. Leave orders with Miss Chardor or Mr. Moser.

Peter, son of Mr. and Mrs. Charles Sartoris, is expected to reach Blairmore over the week end from Italy.

Completing a mission here in the interest of St. Anne's Catholic church, Father Collins returned to Calgary on Sunday last.

The question was asked on Saturday: Who is the man who was on relief in Blairmore for a considerable time, and who has purchased a fruit farm in British Columbia?"

In the air derby between England and Australia, Scott and Black won \$50,000, making the run to Melbourne in the remarkable time of 71 hours. Two lives were lost in the derby.

A newspaper man in South America was kidnapped the other day for a forty-cent ransom. He was released when the kidnapper discovered he didn't have that amount, and was handed two bits to pay his way back home.

The Women of the Moose will hold a sale of goods, home cooking, etc., in the Lodge hall on Wednesday, October 31st, from 3 to 6 p.m. Whist drive and dance in the evening at 8 o'clock. Turkeys and chickens as prizes. Keep this date open.

The Britannia Paint Works, after a splendid paint job on the interior of the F. M. Thompson Co. store, had sympathy for Upton's tailor shop building, giving it two coats that just seemed to make the place reflect pleasantly upon the surroundings.

And there are people in the world yet who are fool enough to imagine that a newspaper man has money. Only last week an attempt was made to rob the safe of the Hanna Herald, and not a solitary cent was secured. A man named Murphy, hailing from Ottawa, who had the previous day answered charges of vagrancy, etc., in court, is held as a suspect.

Frank P. Bennett, of Boston, editor of the United States Investor, told the American Bankers' Association in Washington that the movement in the United States for a central bank, dominated by government, is of "an ominous character." "It asks," he said, "that this country undertake something that is without sanction of anybody's experience."

The Recorder's Court at Montreal has ruled that a sheet known as "The Young Worker," organ of the Communist League of Montreal, is not a newspaper. A recent issue of the sheet urged partisans to protest against war and Fascism, and urged the youth of Canada to avoid a recurrence of the horrors of the World War by adhering to the tenets of the Union of Socialist Soviet Republics.

A daily newspaper, commenting on a court case, referred to the acquittal of the accused and used the name of the prosecuting attorney as the accused. The attorney's numerous friends were interested in reading of his "acquittal" on the charge of horse stealing. They believe that the charge, as Mark Twain said of the famous report of his death, was greatly exaggerated.

The Clareholt Local Press remarks, regarding the gasoline price situation: "We know what we would do if we were in charge of the provinces natural resources. We would get full information on comparative import charges and then set out to see why Alberta people had to pay eight cents a gallon more than the people in Ontario for gasoline. What are governments for if not to guard the people's interests? The oil industry is entitled to the same regulating influences as the wheat industry; but as long as we pay and don't squeal, we'll have to pay the big prices. As it now stands, oil in Alberta as a natural resource is a liability to the province."
